Outline

Overview

Where To Use

How To Use

Demos

Construct - Test - Debug

Arcade Overview

Portable

Lightweight

Secure

Look and feel of JavaScript

Many base JavaScript/Excel functions

Profiles and Function Bundles

Does not replace Python

Where To Use

ArcGIS Online

ArcGIS Enterprise

Runtime SDKs

ArcGIS API for

JavaScript

Symbology

Labels

Popups

Dashboards

Forms

Attribute Rules

How To Use

- Profile
- Function Library and Bundles
- Expression
 - Global Variables
 - User Variables
 - Functions and Logic
- Output

Demonstrations

Link to Web Map used During Demo

[Tree Inventory Demo Map](#)

Construct - Test - Debug

- Save Externally
- Rely on the Editor for help
- Chain Functions
- Reduce FeatureSet items

Knowledge Check

- What is Arcade?
- Where can I use Arcade expressions?
- Where do I go to find the available Arcade functions?
- How do I access a features attribute?
- What is a feature set?
